Directs that when
Ryots engage to contribute
towards the cost of any
work in Cash, the work
is never to be commenced
until the Contribution
has been realized —

To the Chief Commissioner
In order -

7.6.11

In para VI in lieu of the
words "Specify the quantity of work
to be executed month by month"
I would prefer the more general
phrase "Specify the proportion of
the work ^{to be executed} ~~to be executed~~ month
by month" -

This change I think desirable as
if for instance the ryots undertook
to do 1000 cys of earth work and 200
cys of stone it would be hard to come
down on them if in lieu of this they
actually executed say 500 cys of earthwork
and 300 cys of stone - They would
I think ~~also~~ better understand such
an agreement as a fourth, a third,
a half, the work each month, which
would moreover allow them to carry out
the portions of the work under different
heads as might best suit them from
commencement -

On regards the remaining portion of the
para commencing with the words "Should this
engagement" it appears to me that in
very many cases the action would not be
sufficiently decisive in reference to the
actual requirements of the work which might
suffer as seriously from delay -

I would in fact prefer that the ^{an Eng} should have the power to notify to the
Head of the Village (Sending copy at once of
such notification to the D. Commission) that
if within 14 days the promised work was
not commenced with such a body of labor
& materials as satisfied him that the
terms of the Moochulka would be fully
complied with he would at the expiring
of that time put on his own labor, and
take the requisite measures for carrying
out the work as if paid for by a cash
contribution - If this could be made
to form a clause in the original Moochul
-ka taken from the roots all difficulties would
be at an end - Otherwise I fear that
the delays will prove dangerous to many
works

to be issued on the subject of Contributions
from agents for Immigration works & the D. A. G.
and with reference to his conversations on the
subject yesterday with the undersigned, as
James Arthur W. Henson agrees to the ac-
cords procedure there directed in the Circular

4/8/73

Circular

As the existing orders regarding the collection of contributions promised by Egypt towards the repairs of their dragoon barracks have, in practice, led to considerable delay in carrying out necessary works and much correspondence with the Civil Officers regarding the obligations of the ~~money~~ Egypt under the Chief Comr. directs that the following course be adopted in future, superseding the orders conveyed in their Officer letters N. 52, 55 and 57 of the 2nd June 1864.

2. When the contribution promised is in cash the labour at work will be accounted for the full value of the work labourer for and the amount if he receives from the Egypt will be intimated to the Deputy Accountant General ^{by certificate} who will then place that sum at the disposal of the Engr. concerned and debit the expenditure against the "Subsidy for Repairs" in the Civil Budget - Statement will be recorded ^{as} the Deputy Comr. has succeeded in collecting the money from the Egypt.

3. When the contribution promised is in labor
the voucherlike taken for the right is to specify
the quantity of work to be executed month by
month commencing from the date on which, ~~the~~
~~contribution to the work is assigned to them~~ after
direction, a statement of the particulars of the work
they are to carry out has been furnished to them
by the Sec. of. Should the engagement not be
worked up to the Sec. of will give them formal
notice that if the full amount of arrears ~~will be~~
not fully worked ^{up} within one month from the date
then work will be stopped ^{and cancellation departmentally} and
I ~~will~~ receipt of such notice the full balance of
contribution not worked out collected by the
Deputy Com. in cash

4. When this procedure is necessary the Sec. of
will certify the amount to be recovered in cash
2. The Sec. of also will inform the Dist. Sec. of
and Controller and the course followed will be
precisely the same as if the contribution
had been originally promised in cash

6-8-73

No. 7740.

Deputy Accountant General's Office.
Bangalore 16th August 1873

From

The Deputy Accountant General
of Mysore.

To

The Secretary to the Chief Commissioner
Public Works Department.

Sir,

In reply to your docket No. 1560
of 5th instant, I have the honor to
suggest that the following may be
substituted for the 2nd para of the
draft Circular Memo enclosed by you
on the subject of accounting for cash
contributions from Ryots towards
works executed in the Public Works Depart-
ment Irrigation Branch.

2 " For every contribution, the Ryot
or Ryots must enter into a written engage-
ment, to be duly executed with such
formalities as will be binding on them
and in all cases specifying a certain
period for its fulfilment. When the
contribution is stipulated to be given
in cash, the estimate, being sanctioned
for the full value of the work as estimated
for, will also show the amount

12
payable by the City. The sanctioned ^{amount of} estimate and the recoverable amount ^{from Boston City} ^{amount or detail?} will be intimated by the sanctioning authority to the Deputy Accountant General and to the Controller Public Works Account. The Deputy Accountant General will then debit the recoverable amount to a special head in the Civil Books under "Public Debt," such as "contributions for works recoverable from City" and will at the same time afford credit for the amount to the Public Works Department, advising the Deputy Commissioners of the District who will be held primarily responsible for the recovery of the contributions in due course.

Q. 4. The Controller will apply to the Deputy Accountant General for the necessary funds on ordinary credit orders in favor of the Executive Engineer, and on receiving advice from the Deputy Accountant General of the credit given to the Public Works Department in usual course will make the necessary adjusting entries in the Public Works accounts. The recoveries as they are made will be credited in the Civil Accounts to the account to which the amount of

contribution is ¹⁵ charged.

¶ 5. In case of failure on the part of the Ryo to pay up the full amount of cash contribution, within the time agreed to, it will be the Deputy Commissioner's duty at once to take ~~such~~ steps to enforce the demand, and should the whole or any portion in any case prove to be irrecoverable he will without delay apply for the Chief Commissioner's ^{order} ~~order~~ for the adjournment of the amount ~~for~~ debt of the Immigration Department in the Public Works Office in such manner as may appear most desirable. I have no suggestion to offer regarding the remaining paras of your Memo.

I have the honor to be
Sir

Your Most Obedient Servant

M. S. B.

Mysore Commission

Memorandum.

As the existing orders regarding the collection of contributions promised by ryots towards the repairs of their Irrigation works have, in practice, led to considerable delay in carrying out necessary works, and much correspondence with the Civil Officers regarding the realization of the ryots quota, the Chief Commissioner directs that the following course be adopted in future superseding the orders conveyed in this Office letters Nos 54, 55 and 56 of the 3^d June 1869.

2. When the contribution promised is in Cash, the Estimate will be sanctioned for the full value of the work estimated for; and the amount to be recovered from the ryots will be intimated to the Deputy Accountant General (by sanctioning authority) who will then place that sum at the disposal of the Executive Engineers (through the Controller Public Works Accounts) concerned. And

debit the expenditure against the Sub-Head
"Miscellaneous Advances" in the Civil
Budget, which will be recouped as the
Deputy Commissioner succeeds in collecting
the money from the ryots. —

* 6 When the contribution promised is in
labor, the *Moschilika* taken from the ryots
is to specify the ^{quantity} quality of work to be executed
month by month, commencing from the
date on which, after sanction, a statement
of the particulars of ^{the} work they are to carry
out has been furnished to them by the
Executive Engineer. Should the engagement
not be worked up to, the Executive Engineer,
after consultation with the Deputy
Commissioner, will give them formal
notice, through the Deputy Commissioner,
that, if the full amount of arrears be
not fully worked out within one month
from date of receipt of such notice, their
work will be stopped, and undertaken
Departmentally; ^{and} the full balance of
contribution, not worked out, collected

17

by the Deputy Commissioner in cash

4.7 When this procedure is necessary, the Executive Engineer will notify the amount to be recovered in cash, to the Superintending Engineer, who will inform the Deputy Accountant General and Controller; and ~~then~~^{the} course followed will be precisely the same as if the contribution had been originally provided in cash. —

To Commrs of Dist & Div: by Special

Circular Memorandum

As the existing orders regarding the collection of contributions promised by Ryots towards the repair of Irrigation Works have, in practice, led to considerable delay in carrying out necessary work and much correspondence with Revenue Officers regarding the realization of the Ryots' quota, the Chief Commr directs that the following course be adopted in future superseding the orders conveyed in this Office Nos 54, 55 and 56 of 3rd June/69.

II For every contribution, the Ryot or Ryots must enter into a written engagement to be duly executed with such formalities as will be binding on them and in all cases, specifying a certain period for its fulfilment.

III When the contribution is stipulated to be given in cash the Estimate, being sanctioned for the full ^{value} amount of the work estimated for, will also show amount payable by the Ryots.

26

The amount of sanctioned estimates, and the amount recoverable from the Ryots in cash, will be intimated by the sanctioning authority to the Deputy Accountant General, and to the Controller, P. W. Accounts. The Deputy Accountant General will then debit the recoverable amount to a special head in the Civil Books, under "Public Debt", such as "Contributions for works recoverable from Ryots", and will at the same time afford credit for the amount, to the Public Works Department, advising the Deputy Commr. of the District, who will be held primarily responsible for the recovery of the contributions in due course.

The Controller will apply to the Deputy Accountant General for the necessary funds on ordinary credit orders, in favour of the Commr. District Engineer, and on receiving advice from the Deputy Accountant General of the credit given to the Public Works Department, in usual course, will make the necessary adjusting entries in the Public Works

V. In case of failure on the part of the Ryots to pay up the full amount of cash contribution, within the time agreed to, it will be the Depy. Commissioner's duty to, at once to take steps to enforce the demands, and should the whole or any portion, in any case, prove to be irrecoverable, he will without delay, apply for the Chief Commissioner's orders for the adjustment of the amount in such manner as may appear most desirable.

VT. When the contribution pro-
mised is in labor, the Provochitka
taken from the Repts is to spe-
cify the ^{proportion} ~~quantity~~ of work to be
executed, month by month, com-
encing from the date on
which, after sanction, a state-
ment of the particulars of the
work ~~has~~ are to carry out has
been furnished to them by the
Executive Engineer ^{on April}. Should this
engagement not be ~~made up~~ ^{will be}
by the Executive Engineer ^{on April}
before the 1st of April begins

also the portions taken
taken in land and
completed first and the
boat must be carried out
thickly a carburettor with
thin shellac or with
an oil or fat, after and by

In formal notice of the
 days of receipt of such notice, all arrears
 of contribution with the Dy. Comr. will
 be not worked out, and such steps
 taken and labor collected as will in
 the Dy. Comr. that if the full amount
 his opinion, allow of the work being
 completed within the time specified,
 within one month from the date
 of receipt of such notice, their work
 will be stopped, and undertaken
 departmentally; and the full balance
 of contribution, not worked out, col-
 lected by the Dy. Comr. in cash.

This should be
 embodied in
 the original Nos
 21111

21111
 2179 2180 2181

VII. When this procedure is necessary
 the Executive Engineer will notify
 the amount to be recovered in
 cash to the Superintending Engr.
 reer, who will inform the Dy.
 Accountant General and Controller,
 and then the course followed
 will be precisely the same as if
 the contribution had been originally
 promised in cash.

Circular Memorandum.

To

The Commissioners of Divisions and Irrigation Executive Engineers.

As the existing orders regarding the collection of contributions promised by ryots towards the repair of irrigation works have, in practice, led to considerable delay in carrying out necessary works, and much correspondence with the Revenue Officers regarding the realization of the ryots' quota, the Chief Commissioner directs that the following course be adopted in future, superseding the orders conveyed in this Office os. 54, 55 and 56 of 3rd June 1869.

II. For every contribution, the ryot or ryots must enter into a written engagement, to be duly executed with such formalities as will be binding on them, and in all cases, specifying a certain period for its fulfilment.

III. When the contribution is stipulated to be given in cash, the estimate being sanctioned for the full value of the work as estimated for, will also shew the amount payable by the ryots. The amount of sanctioned estimate, and the amount recoverable from the ryots in cash, will be intimated by the sanctioning authority to the Deputy Accountant General, and to the Controller, P. W. Accounts. The Deputy Accountant General will then debit the recoverable amount to a special head in the Civil Books under "Public Debt," such as "contributions for works recoverable from ryots," and will at the same time afford credit for the amount to the Public Works Department, advising the Deputy Commissioner of the District, who will be held primarily responsible for the recovery of the contribution in due course.

IV. The Controller will apply to the Deputy Accountant General for the necessary funds on ordinary credit orders in favor of the Executive Engineer; and on receiving advice from the Deputy Accountant General of the credit given to the Public Works Department, in usual course, will make the necessary adjusting entries in the Public Works Accounts. The recoveries as they are made, will be credited in the Civil Accounts to the account to which the amount of contribution is charged.

V. In case of failure on the part of the ryots to pay up the full amount of cash contribution, within the time agreed to, it will be the Deputy Commissioner's duty at once to take steps to enforce the demand, and should the whole or any portion in any case, prove to be irrecoverable, he will without delay apply for the Chief Commissioner's orders for the adjustment of the amount, in such manner as may appear most desirable.

VI. When the contribution promised is in labor, the Mutchalika taken from the ryots is to specify the proportion of work to be executed, month by month, commencing from the date on which, after sanction, a statement of the particulars of the work they are to carry out, has been furnished to them by the Executive or Assistant Engineer; also the portions to be taken in hand and completed first, and the work must be carried out strictly in accordance with this specification, or with such orders as may afterwards be passed by the Executive or Assistant Engineer. Should this engagement not be worked up to, the Executive Engineer will give them formal notice that if within 15 days of receipt of such notice, all arrears be not worked out, and such steps taken, and labor collected, as will in his opinion allow of the work being completed within the time specified, their work will be stopped, and undertaken departmentally, and the full balance of contribution, not worked out, collected by the Deputy Commissioner in cash.

VII. When this procedure is necessary, the Executive Engineer will notify the amount to be recovered in cash, to the Superintending Engineer, who will inform the Deputy Accountant General and Controller, and then the course followed will be precisely the same as if the contribution had been originally promised in cash.

"By Order,"

W. R. JOHNSON, Major,
 Under-Secretary to the Chief Commr. of Mysore,
 Irrigation Branch.

Key Collection of
Contributions

25

PUBLIC WORKS.

NOTIFICATION.

The 2nd October 1873.

With a view to the better conservancy of tanks, and other *irrigation and water supply* works in the Province of Mysore, the Chief Commissioner directs the publication of the following Rules, which are to have effect from the 1st of November 1873, and be applicable from that date to all tanks and other works as above mentioned, that may, on or after that date, be formally handed over to the ryots for up-keep.

“By Order,”

W. R. JOHNSON, Major,
Under-Secy. to the Chief Commr. of Mysore,
P. W. D.

RULES FOR THE MAINTENANCE OF TANKS.

Rule. 1.—The enforcement of the rules for tank maintenance is entrusted to the Patel of the village to which the tank or tanks are attached, and they are to be assisted in this duty by the hobli Shekdar.

Rule. 2.—The individuals to be held responsible for the maintenance and up-keep of the tanks are the Pattedars, Shikmidars, Inamdars and others holding lands attached to the village, either dry or wet, inhabitants of the village, and all others deriving any benefit whatever from the tank, either directly or indirectly.

Rule. 3.—The proportion of work to be done by each of the above indicated individuals will be decided by the Patel and Shekdar, according to the amount paid by each to Government, for lands, houses, or other property, &c., attached to the village—such proportion to be constant, no matter what quantity of work has to be carried out. Dissentients to have the ordinary right of appeal to higher authority. The proportion of work to be done by inamdars will be fixed in the same manner; their lands, &c., being valued at the same rates as those paid for similar property belonging to Sarkar ryots.

Rule. 4.—The works falling under the head of tank maintenance will be ordinary earth and turf work repairs of every description connected with the tanks, and their subsidiary works; excepting such as may be specially exempted, and noted in the tank book as to be kept in repair by Government.

Rule. 5.—The above repairs shall, as a rule, be carried out simultaneously at periods to be fixed by the village authorities; but when necessary (as in cases of damage done by rain, floods, &c.) the requisition of the village authorities for immediate repairs must be at once attended to.

Rule. 6.—In case of default by any individual in the execution of his obligations, as above laid down, the village authorities above mentioned are empowered, and required, to carry out the portion of work that ought to have been done by the defaulter, by paid labor, the cost being recovered from the defaulter as a revenue demand.

Rule. 7.—The village Patel will be held primarily responsible that the tanks are maintained up to the standard laid down for each in the tank book, and it will be the duty of the Shekdar to satisfy himself, by personal inspection in each case, that this has been done.

Rule. 8.—A regular inspection of each tank in his taluk shall be made annually, between the months of December and March, by the Amildar himself, so far as possible; otherwise by the Peshkar, Sheristadar or Taluk Mestri specially deputed for such duty by the Amildar, and the results of this inspection are to be entered in a Register, as per annexed Form A.

Rule. 9.—Whenever a tank on such inspection is found not to be up to standard, a second inspection is to be made of the tank prior to the end of April, by which time the repairs must be completed, failing which, the unexecuted repairs will be carried out by the Amildar: and the cost recovered from the defaulters as a revenue demand.

Rule. 10.—A duplicate copy of the Register will be forwarded by the Amildar to the District Revenue Officer prior to the 1st June, by which date all tank works should be completed.

Rule. 11.—Assistant Commissioners in charge of Sub-Divisions, or otherwise employed in taluks, are expected during the period of jamabandi and on other convenient occasions, personally to inspect as many tanks as possible, and test the accuracy of the taluk returns, entering date of inspection and their remarks in the form attached to the Tank Book for that purpose. The result of their inspection will be communicated to the Deputy Commissioner at once on completion.

Rule. 12.—Similar duties will be performed by the Deputy Commissioner, who will be held responsible that the above mentioned rules are duly and intelligently carried out, and not allowed to become a mere form.

Rule. 13.—Work ordered to be carried out to any tank by an Officer of the Public Works Department of the Engineer Grade will be done at once on that Officer's responsibility. Should any portion of such work form no part of the duty of the ryots, the usual Notification of sanction for the same will be submitted by the Amildar through the proper channel. Work considered requisite after inspection by an Officer of the Public Works Department of the Subordinate Grade, will be reported by him without delay to his departmental superior, and in cases of urgency, direct to the Amildar also.

Form A.

Inspection Report on the Tanks in the

Tank for the Season ending

Hobli.	Name of Village.	Name of Tank.	Number of Tank.	Date of Inspection.	By whom inspected.	Copy of Observations made in Tank Book.				Waste-weir if perfectly secure and free from leaks.	Signature and Remarks.
